

**Are you ready to face new challenges?
Do you wish to grow with an international high-tech leader?
If so, we want to meet you.**

Manager, Technology (Montreal, Canada)

What we do:

Adacel Inc. is recognized for its innovative software solutions for operational air traffic management (ATM) and air traffic control (ATC) simulation and training. Our success in Canada and the international market has created opportunities for experienced professionals to join us in the following role:

Adacel is currently seeking a **Manager, Technology** to join our Technology department. We are looking for someone with high-energy, passionate, innovative and an adaptive team player with great work ethic. The Manager of Technology is responsible for infrastructure operations including servers, storage, networks, cloud platforms, applications, and build systems. They will also collaborate with various departments to design and implement new technologies as needed.

Responsibilities include, but are not limited to:

- Maintains organization's effectiveness and efficiency by defining, delivering, and supporting strategic plans for implementing information technologies.
- Troubleshooting complex network and system issues and coordinating with various departments when necessary.
- Verifies application results by conducting system audits of technologies implemented.
- Preserves assets by implementing disaster recovery and back-up procedures and information security and control structures.
- Recommends information technology strategies, policies, and procedures by evaluating organization outcomes; identifying problems; evaluating trends; anticipating requirements.
- Administering the Active Directory domain including user accounts/rights/permissions, group policies, etc.
- Creating and maintaining network and system documentation.
- Maintains quality service by establishing and enforcing organization standards.
- Automating deployment of Linux/Windows applications, system configurations and security settings.
- Maintains professional and technical knowledge by attending educational workshops; reviewing professional publications; establishing personal networks; benchmarking state-of-the-art practices; participating in professional societies and associations.
- Performs other duties as assigned by Supervisor.

Qualifications:

- Bachelor's degree in Computer Science, Management Information Systems, or a related field.
- Excellent knowledge of technical management, information analysis and of computer hardware and software systems.
- Expert knowledge of Data Center Management and Data Governance.
- Experience in managing the Atlassian suite of tools.
- Familiar with multiple coding languages.
- Hands-on experience with computer networks, network administration and network installation.
- Previous leadership experience.

Other Qualifications:

- Ability to adhere to Adacel's Drug Free Workplace Policy.
- Ability to pass an Adacel background check while employed.

Physical Requirements:

- Occasional lifting such as servers, switches, and UPS batteries– up to 50 lbs.
- Repetitive wrist, hand, and finger movement.

Work Environment:

- Alternative work schedules (9/80 or 4/10).
- Normal office environment.
- Typically sitting at a desk.
- May be on-call after hours and/or on weekends, mostly emergency situations.

If you are looking for an exciting, progressive company that offers challenges, a friendly and casual work environment, competitive salaries, excellent [health, dental, short and long-term disability, life insurance, RRSP contributions (Canada), and much more, please send your resume to careersusa@adacel.com.
