Adacel Technologies Limited (ASX: ADA)

ASX & Media Release

8 March 2016

USA TODAY show features Adacel's ATC tower and simulator

Adacel Technologies Limited (**Adacel** or the **Company**) is pleased to advise that its air traffic control tower and simulator have been featured on a recent USA TODAY show television segment focusing on the role of air traffic controllers at New York's John F. Kennedy Airport.

The air traffic control tower simulator featured in the segment is one of Adacel's MaxSim systems. This tower simulator was originally installed in 2009 and represents one of over 50 Adacel tower simulators installed and currently in use by the Federal Aviation Administration (**FAA**) throughout the United States of America. The FAA tower simulators are operated and maintained by Adacel field service personnel and have been under an ongoing support contract with Adacel for more than 12 years.

A link to the video is available on Adacel's website (www.adacel.com) under "Latest News".
